

HSEQ Manager

Floating Power Plant A/S (FPP) have an opportunity for an experienced HSEQ Manager to join our fast-growing business and lead this key function within the company. If you want to have direct influence and be part of a renewable energy adventure – please send an application to HR@floatingpowerplant.com

Tasks

- Provide certification, legislative and regulatory advice to management teams on all matters relating to HSEQ
- Develop and maintain the quality management system including procedures, processes, offering support and advice.
- Develop and maintain the safety management system including all procedures, processes, safe systems of work, offering support and advice.
- Coordinate certification applications, submissions and interaction
- Work with the Technical Leaders and Project Managers to maintain quality throughout the Design and Development process
- Work towards appropriate accreditations (ISO 9001, ISO 14001, ISO 18001)

Education, Skills and Experience

Required

- 5 + years of proven experience in HSEQ role in a relevant industry
- Professional HSE qualification (e.g. NEBOSH)
- Knowledge of offshore certification standards
- Must be eligible to work in Denmark

Desirable

- Experience in offshore wind, particularly floating
- Knowledge of floating offshore wind certification
- Experience in ISO accreditation applications and audits

Other Attributes

- Proficient knowledge of Microsoft Office software (Excel, PowerPoint, Word).
- Strong written communications and presentation skills.
- Ability to work across cultures and in different geographies.
- Ability to travel occasionally.

What we offer

- FPP is a Danish company, backed by 240 shareholders, rapidly expanding in order to develop and commercialise the world's first floating wind and wave device

- We have a fast-paced and fun environment with varied tasks and a great team
- You will be working alongside colleagues and external partners who are the leaders in their fields
- The work which you undertake will be key to the company's success, and will directly impact the design of FPP's technology and our commercial projects
- Attractive working terms
 - Competitive salary and share option program (warrants) - meaning you can own a part of our success
 - Great working conditions incl. flexible working hours, pension, 6 weeks holiday, option to work in other offices, etc.
 - Good working environment incl. lunch, social events, modern facilities, etc
 - Regular Friday drinks and other events with colleagues
- We are an international team so the main office language is English.
- The place of work is Vallensbæk, Denmark or Gran Canaria, Spain (FPP's technical team is located in these two offices)

Cross competencies

Please note we are currently looking for 7 new colleagues. If your skill set overlap some of the other positions, please emphasise this, as this will be evaluated positively.
